INTRODUCTION

The Electronics & Telecommunication Department of MHSSCOE has organised an orphanage visit for the students of T.E. & B.E. EXTC at Anjuman-E-Yatima, Madanpura, Byculla, Mumbai on 13th March 2019. There were 20 students who had participated in this visit with one faculty member, ErAwij. A.R.Shaikh. We reached there at 11:00 am and were welcomed by their Visit coordinator.

OBJECTIVE OF VISIT

The main objective of the orphanage visit is to create a positive loving environment in which the often abandoned and neglected children feel at home and cared for, as a basis for social and professional development.

INFORMATION ABOUT VISIT

We had visited the central room of orphanage & we were given a brief introduction about orphanage.

During the visit, students put together programmed them healthy lifestyle, love yourself, where they interacted with 30 orphans.

The childrens were also exposed to an educational talk, quizzes and games that worked somewhat like an explorance.

OUTCOME OF THE VISIT

As per the NSS Scheme, the community service program has given them to improve their soft skills. It had helped them to develop their communication skills. Visiting such places and donating various things also gives them a sense of giving. They learn that the more they give is the more they get themselves also. They learn visiting these places develops a sense of helping others. They also learn that their small help can make so much difference in a person's life. And that tends to bring immense joy in their heart.
